HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, contributing to a mixed architecture of monolithic and modern platforms, processing approximately **4,000 transactions per hour**.
- Enhanced full-stack applications by building and integrating **React** frontend components with backend Java APIs, improving user interaction flow for core operational features.
- Designed and implemented REST APIs in **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns to ensure system resilience.
- Collaborated with distributed engineering teams on **feature development** from design through to production support, adhering to Agile methodologies and participating in sprint planning and estimation.
- Supported production applications by troubleshooting incidents and identifying root causes, contributing to a **15% reduction** in critical ticket resolution times through proactive monitoring.
- Promoted automated testing practices by writing **JUnit** tests for new Java code, increasing unit test coverage by **20%** for the team's core services.
- Containerized backend Java applications using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits and enabling smoother rollouts.

SKILLS

Backend Development – Java, Spring Boot, Microservices, REST APIs, Hibernate, JPA, JUnit, Maven

Frontend Development – React, HTML, CSS, JavaScript

Databases – SQL, PostgreSQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, EKS)

DevOps & CI/CD – Docker, Jenkins, Git, Code Reviews

Tools & Methodologies – Agile, Scrum, Jira, Confluence, Linux Shell Scripting

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java modules into a **Spring Boot microservice** architecture, improving maintainability and enabling independent deployment of features.
- Integrated the new microservices with **PostgreSQL** using **Hibernate**, ensuring efficient data persistence and retrieval for critical financial operations.
- Implemented comprehensive **JUnit** and integration tests, achieving over **85% code coverage** and reducing post-deployment defects by **30%**.

Customer-Facing React Dashboard for Operational Insights (HCL Technologies)

- Developed a **React**-based dashboard to visualize key operational metrics from a financial services client's transaction processing system.
- Built RESTful APIs in **Java Spring Boot** to serve aggregated data to the frontend, supporting real-time updates and user-driven filtering of over **500,000 records**.
- Collaborated with business analysts to gather requirements and refine the UI/UX, resulting in a more intuitive interface for operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
