HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Python** scripts to automate data extraction and transformation tasks, reducing manual processing time for operational reports by approximately **30%**.
- Designed and implemented **Java Spring Boot** REST APIs for internal services, ensuring seamless data exchange and integration between disparate systems.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace** to maintain service level agreements.
- Assessed packaging-line automation, identifying opportunities for improvement by analysing **Overall Equipment Effectiveness (OEE)** and equipment downtime data.
- Mapped manufacturing processes and identified non-value-added activities, contributing to waste-reduction and productivity initiatives within the operations team.
- Supported the implementation of approved automation improvements by documenting and standardising automated processes for the manufacturing floor.
- Containerized **Java Spring Boot** applications using **Docker** and deployed them to **AWS EC2** instances, enhancing deployment consistency and scalability.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum, Continuous Improvement

PROJECTS

Manufacturing Process Automation Enhancement

- Developed **Python** scripts to automate data collection from production equipment, integrating with **PostgreSQL** to build a historical performance database.
- Created **Power BI** dashboards to visualize OEE, cycle times, and downtime trends, providing actionable insights to the Process Engineering team for efficiency improvements.
- Mapped existing operator workflows and proposed automation solutions to reduce manual interventions, contributing to enhanced equipment ease of operation and quality.

Enterprise Application Integration Suite

- Engineered **Java Spring Boot** microservices to facilitate data synchronization between an ERP system and an operational reporting platform, improving data consistency across interconnected systems.
- Implemented **REST APIs** with comprehensive documentation for cross-system integrations, supporting change-control management for system configuration updates.
- Wrote **SQL** scripts for data validation and schema modifications in **Oracle** databases, ensuring data integrity during system updates and post-go-live support.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
