PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented process governance frameworks for supply chain operations, improving adherence to standard operating procedures across 5 business units.
- Led continuous improvement initiatives by partnering with process owners to redesign key management workflows, resulting in a **15% reduction** in processing time for critical tasks.
- Automated manual data-management processes using Python scripting and SQL queries, streamlining reporting and reducing manual effort by an estimated **20 hours per week**.
- Managed organizational transformation initiatives alongside project management teams, ensuring alignment with strategic objectives and successful adoption of new operational models.
- Developed and delivered executive presentations summarizing supply chain performance metrics and outlining strategic improvement plans to senior leadership.
- Oversaw complete process documentation and standardization efforts across key supply chain workflows, enhancing clarity and consistency for operational teams.
- Containerized data processing applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment efficiency and environment consistency.

SKILLS

Supply Chain Management – Sales & Operations Planning (S&OP;), Process Governance, Continuous Improvement, Process Redesign, Operational Frameworks

Data Analysis & Automation – Data Analysis, Advanced Analytic Techniques, Optimization, Simulation, Data Mining, Statistics, Python Scripting, SQL

Project & Change Management – Organizational Transformation, Project Management, Stakeholder Management, Executive Presentations, Change Initiatives

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, Git

Business Systems – ERP Integration Support, Enterprise Systems, Business Intelligence, Operational Reporting

PROJECTS

Supply Chain Process Harmonization Initiative

- Drove process harmonisation across disparate business units by analysing existing workflows and defining standardized operational procedures for supply chain functions.
- Implemented a **Python-based automation script** to consolidate reporting from multiple legacy systems into a unified dashboard, reducing manual data compilation time by **30%**.
- Developed comprehensive documentation for standardized workflows, including flowcharts and step-by-step guides, utilized by the operations team for training and daily execution.

Data-Driven S&OP; Enhancement

- Applied advanced analytic techniques, including **statistical analysis** on historical demand data, to improve the accuracy of Sales & Operations Planning forecasts.
- Created interactive **Power BI dashboards** to visualize key S&OP; metrics, enabling stakeholders to identify trends and make informed decisions regarding inventory and production planning.
- Collaborated with business analysts to gather requirements for enhanced reporting capabilities, ensuring the dashboards directly addressed critical business drivers and strategic objectives.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
