+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Provided specialized technical support by developing and implementing novel solutions for complex issues within the Global Roaming and New Revenue Generation Organisation.
- Researched and recommended network and data communications hardware and software, contributing to the enhancement of existing technology infrastructure.
- Developed and delivered training programmes to educate employees on basic and specialized applications, ensuring effective use of company hardware and software.
- Diagnosed, identified, and troubleshot escalated technical issues on employee computer systems and mobile devices, ensuring timely resolution and minimal disruption.
- Managed customer interactions and support tickets with a high level of service, maintaining detailed records and adhering to established procedures.
- Analyzed system, software, and hardware functionality to detect and resolve issues, contributing to overall system stability and performance.
- Documented equipment set-up instructions and provided end-to-end support for installation and troubleshooting processes for employee hardware.

## SKILLS

**Network & Communications** – Routing, Switching, Voice over IP (VoIP), Unified Communications, Telephone Systems, MPLS Architecture, Time-Division Multiplexing (TDM), QoS Management, Global Roaming

**Technical Support & Operations** – Troubleshooting, System Administration, Ticketing Systems, End-User Support, Escalation Management, Training Development, Documentation

**Software & Development Practices** – Agile Methodology, Software as a Service (SaaS), Business Intelligence (BI), Presales, Software Development

**Core Technologies** – Active Directory (AD), Linux, Shell Scripting, Cron Jobs, Git, Jenkins, Jira, Confluence

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

**Programming & Data** – Python, Java, SQL, Spring Boot, REST APIs, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, Power BI, Tableau, R, pandas, NumPy, scikit-learn

## PROJECTS

### Customer Technical Support Automation Framework

- Developed a Python-based framework to automate ticket categorization and initial response generation for common employee hardware and software inquiries.
- Integrated the framework with a ticketing system (Jira Service Desk) to reduce manual triage time by an estimated **30%** for Tier 1 support requests.
- Created comprehensive documentation and conducted training sessions for the support team on the new automation tools and workflows.

### Employee Onboarding & Training Platform Enhancement

- Designed and implemented a series of interactive training modules on core company software and hardware, accessible via an internal Confluence portal.
- Gathered requirements from IT operations and end-user feedback to refine training content, focusing on practical troubleshooting steps for common issues.
- Assisted in the setup and configuration of new employee workstations, ensuring all necessary software and network access were pre-configured based on role requirements.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
