HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incidents for enterprise Java applications, performing root cause analysis using **Splunk** and **Dynatrace** to maintain service level agreements.
- Automated data extraction and reporting tasks using **Python** scripting, reducing manual effort for the operations team by approximately **15%**.
- Developed and maintained **Java Spring Boot** REST APIs for cross-system integrations, ensuring adherence to enterprise architecture standards.
- Provided ad hoc reports and data analysis using **SQL** across **PostgreSQL** and **Oracle** databases to support business requirements.
- Developed and maintained packages for background processing and reports using **PL/SQL**, enhancing the efficiency of operational workflows.
- Analyzed and resolved database issues within the Oracle environment, contributing to improved data integrity and system performance.
- Managed project source code and documentation through **Git** and Confluence, ensuring adherence to code version management practices.

SKILLS

Database Development – Oracle PL/SQL, SQL, PostgreSQL, MySQL, Oracle, Data Modelling, Database Design, Database Tuning, Performance Monitoring

Programming Languages – Java, Python, PL/SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, APEX, OAP

Methodologies – Agile, Scrum, Change Management, Incident Response, Code Version Management

PROJECTS

Oracle PL/SQL Backend for Financial Operations

- Developed complex **PL/SQL** packages and stored procedures to manage transaction processing and reconciliation workflows for a financial services client.
- Implemented efficient data retrieval and manipulation logic using **SQL**, optimizing query performance for a high-volume payments operations dashboard.
- Collaborated with business analysts to gather requirements for new reporting features, translating them into technical specifications for **Oracle** database development.

Java Spring Boot API for Enterprise Systems Integration

- Engineered **Java Spring Boot** microservices to facilitate data exchange between ERP modules and other enterprise business systems.
- Designed and implemented RESTful APIs adhering to industry best practices, including error handling and request validation, supporting system integrations.
- Managed database interactions using **Hibernate** and **JPA**, ensuring data consistency and integrity across interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
