PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained enterprise-scale **Power BI dashboards** and reports for business stakeholders, translating complex data into actionable insights.
- Built and optimized **Microsoft Fabric** data solutions, including Lakehouse and Data Warehouse components, to support scalable analytics.
- Designed and implemented robust, scalable **data models** using star schema principles, ensuring performance and maintainability for analytical workloads.
- Created complex **DAX measures**, calculations, and KPIs to derive key business metrics and support strategic decision-making across multiple reporting datasets.
- Led data migration initiatives from legacy **Oracle BI platforms** to modern **Microsoft Fabric** and **Power BI** environments, ensuring data integrity and minimal disruption.
- Collaborated closely with business users to gather requirements, understand analytical needs, and translate them into effective reporting and BI solutions.
- Implemented data governance, security protocols, and **role-based access controls** within **Power BI** and **Fabric** environments to ensure data privacy and compliance.

SKILLS

Microsoft Fabric – Lakehouse, Data Warehouse, Dataflows, Semantic Models

Power BI – Power BI Desktop, Power BI Service, Report Builder, DAX, Power Query

Data Modelling – Star Schema, Dimension Tables, Fact Tables, Data Warehousing Concepts

SQL – Development, Performance Tuning, Relational Databases

Cloud & Data Platforms – Azure Data Services, AWS

Development Practices – CI/CD, Git, Source Control, Agile, Scrum

PROJECTS

Enterprise Reporting Platform Modernisation (HCL Technologies)

- Migrated a suite of 15+ critical business intelligence reports from a legacy Oracle BI platform to **Power BI**, improving data accessibility for operational teams.
- Developed new **data models** and complex **DAX measures** within **Microsoft Fabric** to support enhanced analytics and real-time dashboarding capabilities.
- Implemented performance tuning techniques on SQL queries and **Power BI semantic models**, reducing average report load times by **30%**.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Designed and built interactive **Power BI dashboards** to monitor transaction flows and operational alerting for a financial-services client.
- Developed automated **data pipelines** using **Python** and **SQL** to ingest and transform data from multiple sources for the dashboard.
- Collaborated with business analysts to gather requirements and refine dashboard visualizations, directly impacting the operational team's ability to identify and resolve ~2,800 failed payment messages per month.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
