HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, focusing on building new features and addressing critical bug fixes.
- Engineered **Python** scripts to automate data extraction, transformation, and loading (ETL) processes, reducing manual reporting efforts by approximately 40% for the finance operations team.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict service-level agreements.
- Collaborated with business analysts and operations teams to gather requirements for financial dashboard enhancements, facilitating user acceptance testing and post-implementation triage.
- Designed and implemented interactive **Power BI** dashboards and reports, translating complex financial data into actionable insights for senior management and stakeholders.
- Managed change control processes for system configuration updates and coordinated user acceptance testing across interconnected enterprise business systems, ensuring smooth post-go-live transitions.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and simplifying environment management.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI/Analytics – Power BI, Tableau, DAX, Power Query, data modelling

Tools/Methodologies – Jira, Confluence, Agile/Scrum, REST APIs, Linux

PROJECTS

Financial Operations Dashboard Enhancement

- Developed new Java Spring Boot microservices to process and enrich real-time transaction data for a financial services client's operations dashboard.
- Automated data validation checks using Python scripts, identifying and flagging approximately 3,000 malformed transaction messages per week before reaching downstream systems.
- Designed and implemented enhanced alerting mechanisms within the dashboard to proactively notify operations teams of failed payment flows and reconciliation discrepancies.

Interactive Financial Reporting Suite

- Built a suite of 15 interactive Power BI dashboards to visualize key financial metrics, including P&L;, cash flow, and budget variance analysis for a business unit.
- Developed complex DAX measures and Power Query transformations to aggregate data from multiple SQL sources, ensuring data accuracy and consistency for reporting.
- Presented dashboard findings and insights to finance stakeholders, facilitating data-driven decision-making and improving the speed of financial reviews by an estimated 20%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
