HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incidents for enterprise applications, resolving **P1/P2 issues** within defined SLAs using **Splunk** and **Dynatrace** for monitoring and root cause analysis.
- Automated data extraction and transformation tasks using **Python scripting**, creating ETL pipelines that reduced manual processing time by approximately **40%** for weekly reports.
- Developed and maintained **Java Spring Boot REST APIs** for inter-service communication, implementing robust error handling and request validation patterns across multiple microservices.
- Collaborated with cross-functional teams to troubleshoot and resolve complex identity and access management issues, ensuring timely resolution for critical user access requests.
- Designed and implemented security configurations for user provisioning and de-provisioning workflows, adhering to enterprise policies and **access control best practices**.
- Supported the implementation of new identity management features, participating in **sprint planning** and providing technical estimations for development tasks.
- Containerized microservices using **Docker** and deployed them onto **AWS EC2** instances, managing configurations and basic resource allocation for improved deployment efficiency.

SKILLS

Identity & Access Management – Identity Concepts, Access Management, User Provisioning, User De-provisioning, Security Concepts, Enterprise IAM

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Application Access Control System

- Developed a Java Spring Boot application to manage user roles and permissions for internal enterprise systems, integrating with **PostgreSQL** for data persistence.
- Implemented RESTful APIs for role assignment and revocation, ensuring secure and auditable access control mechanisms were in place for **user management workflows**.
- Wrote unit tests using **JUnit** and performed code reviews to ensure code quality and adherence to security standards for the access control module.

Automated User Onboarding Pipeline

- Created a **Python**-based pipeline to automate the user onboarding process, fetching user data from HR systems and provisioning accounts across multiple applications.
- Integrated with **AWS Lambda** and **S3** to handle user data processing and store logs, reducing manual intervention in account creation by an estimated **70%**.
- Designed the pipeline to adhere to strict data handling policies, ensuring compliance with **GDPR** and other relevant data privacy regulations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
