PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed integration projects through **DevOps** practices, overseeing the successful deployment of data integration systems across multiple manufacturing sites.
- Coordinated and implemented the overall design of data acquisition and integration systems, ensuring the reliability, security, and accuracy of these solutions.
- Assisted in defining data structure layouts and data flow models, working closely with servers, databases, and networking components to meet project requirements.
- Developed Python scripts for automation and data pipeline ETL, successfully processing and transforming data for scheduled reporting and operational analysis.
- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Contributed to **CI/CD** pipelines using Jenkins and Git, performing code reviews and participating in Agile/Scrum ceremonies to ensure timely delivery of features and fixes.
- Monitored enterprise applications using **Splunk** and **Dynatrace**, managing SLAs and responding to P1/P2 incidents in production environments.

SKILLS

Integration & DevOps – DevOps, Project Management, Data Integration, CI/CD, Jenkins, Git, Agile, Scrum

Core Development – Java, Spring Boot, REST APIs, Python, Scripting, ETL

Databases & Networking – SQL, PostgreSQL, MySQL, Oracle, Servers, Databases, Networking Components

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux

Monitoring & Observability – Splunk, Dynatrace

Industrial Protocols – Modbus, EtherNet/IP, DeviceNet, BACnet, DNP3, S7comm, OPC UA

PROJECTS

Manufacturing Systems Integration Platform

- Developed data acquisition and integration solutions for manufacturing assets, connecting them to control and business systems using **OPC UA** and **Modbus** protocols.
- Designed data structure layouts and data flow models to support the migration from analog to digital processes across multiple facilities.
- Implemented monitoring and alerting mechanisms for data integration systems, ensuring reliability and accuracy for operational reporting.

Automated Data Processing Pipeline

- Engineered a **Python**-based data pipeline to automate ETL processes for operational reporting, reducing manual data handling by approximately **40%**.
- Integrated the pipeline with **PostgreSQL** and **AWS S3** for data storage and retrieval, supporting downstream analytics and system integrations.
- Developed scheduled reporting scripts that generated key operational metrics, improving data accessibility for business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
