PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored customer discovery and brand visibility across **AI-powered search engines** and **generative discovery platforms**, identifying key performance indicators for engagement.
- Developed and maintained **reporting dashboards** and scorecards to track performance metrics for AI-driven customer journeys and digital distribution initiatives.
- Supported requirements gathering and testing for new AI-enabled customer experiences, assisting in the evaluation of **AI agents** and emerging digital distribution channels.
- Conducted prompt-based testing and evaluation exercises to assess the effectiveness of AI responses and identify opportunities for **prompt optimization**.
- Analyzed customer behaviour across AI-powered discovery paths, translating data into actionable insights to improve engagement and conversion rates.
- Collaborated with **SEO & Discoverability Teams**, **Content & Marketing**, and **Product Management** to align AI discovery strategies with business objectives.
- Researched and monitored **AI industry trends** and competitor activity, providing insights to shape the company's evolving AI Discovery and Distribution strategy.

SKILLS

AI & Machine Learning – Generative AI platforms, AI search experiences, AI assistants, Conversational interfaces, Prompt engineering, Prompt testing, AI evaluations, AI agents, AI ecosystems

Analytics & Reporting – Digital Analytics, Performance Metrics, Business Insights, Dashboards, Reporting, Scorecards, Data Analysis, Customer Experience Analytics

Digital Marketing & SEO – SEO, Digital Discoverability, Marketing Technology, eCommerce

Product Operations – Product Operation, Digital Product Operations, Digital Customer Experiences, Requirements Gathering, Testing, Issue Resolution, Product Releases

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, Power BI, Tableau, R, pandas, scikit-learn

PROJECTS

AI Discoverability Dashboard Development

- Designed and implemented a **Power BI dashboard** to visualize customer discovery patterns across various AI channels, enabling stakeholders to track key performance indicators.
- Extracted and transformed data from multiple sources using **SQL** and **Power Query** to populate the dashboard, ensuring data accuracy and consistency.
- Collaborated with business analysts to define reporting requirements and present findings, facilitating data-informed decisions on AI strategy.

Customer Journey Analytics and Optimization

- Analyzed user interaction data from digital platforms using **Python** and **pandas** to identify friction points in customer journeys.
- Conducted **A/B testing** on website elements and AI assistant responses to measure the impact of changes on engagement and conversion rates.
- Developed reports detailing optimization opportunities, recommending specific changes to enhance the overall customer experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
