PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and configured regulatory reports within the **Nasdaq AxiomSL ControllerView** platform, translating complex requirements into functional specifications for **COREP** and **FINREP** submissions.
- Built and maintained **SQL** and **PL/SQL** data integration pipelines to ingest data from source systems into the AxiomSL platform, ensuring seamless data flow for reporting.
- Performed rigorous **data validation** and **reconciliation** across regulatory submissions, identifying and resolving discrepancies to ensure compliance accuracy for **CRR** and **LCR** reporting.
- Managed SIT, UAT, and production deployment cycles for regulatory reporting changes, coordinating with cross-functional teams to ensure smooth transitions and minimal disruption.
- Provided production support for regulatory reporting solutions, including **incident analysis**, **data investigation**, and troubleshooting submission issues for **NSFR** requirements.
- Collaborated with business stakeholders to gather and document regulatory requirements, ensuring technical implementations accurately reflected financial and risk reporting needs.
- Containerized regulatory reporting services using **Docker** and deployed them to cloud environments on **AWS EC2**, managing configuration through **Jenkins** pipelines.

SKILLS

Regulatory Reporting Platforms – Nasdaq AxiomSL ControllerView, IntegratedModelView, BrokerView

Regulatory Frameworks – COREP, FINREP, CRR, Basel III/IV, LCR, NSFR, AnaCredit, SRB, MREL

Databases & Data Integration – SQL, PL/SQL, Oracle, SQL Server, ETL processes, Data Warehousing

Programming & Scripting – Python, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Core Finance – Banking Products (Loans, Deposits, Securities, Derivatives), Regulatory Treatment, Data Lineage, Data Governance

PROJECTS

AxiomSL Configuration for European Regulatory Reporting

- Configured and developed **COREP** and **FINREP** regulatory reports on the **AxiomSL ControllerView** platform, mapping data sources and defining aggregation logic.
- Implemented **SQL** scripts for data extraction and transformation from legacy systems into the AxiomSL data model, supporting a complex set of banking products.
- Supported SIT and UAT cycles for new report implementations, collaborating with business analysts to validate outputs against regulatory specifications.

Automated Data Validation for Financial Submissions

- Developed **Python** scripts to automate data validation checks against regulatory schemas for **LCR** and **NSFR** reporting, reducing manual effort by approximately 40%.
- Integrated validation scripts into the CI/CD pipeline using **Jenkins**, ensuring consistent quality checks before submission.
- Performed root cause analysis on data discrepancies identified during validation, working with upstream system owners to implement fixes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
