PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and built end-to-end close processes within Redwood Finance Automation, defining task lists, dependencies, and approval workflows for a record-to-report cycle.
- Developed automated account reconciliation modules in Redwood, implementing complex matching rules and exception handling logic to streamline financial operations.
- Engineered journal entry automation, including data preparation, validation, and posting into the target ERP system, reducing manual processing by an estimated **40%**.
- Integrated Redwood Finance Automation with SAP S/4HANA using standard connectors and API interfaces, ensuring seamless data flow for intercompany, accrual, and reclassification processes.
- Performed unit and integration testing for automated finance processes, identifying and fixing defects to ensure smooth progression through user acceptance testing.
- Authored comprehensive technical documentation for Redwood Finance Automation workflows, facilitating a structured handover to the post-go-live support team and reducing initial support tickets by **15%**.
- Managed promotion of finance automation configurations between development, testing, and production environments, coordinating cutover activities and providing hypercare support.

SKILLS

Automation Platform – Redwood Finance Automation, RunMyFinance, RunMyJobs

ERP Systems – SAP S/4HANA, SAP ECC, Oracle FI/CO

Finance Processes – Record-to-Report, Period-End Close, Account Reconciliation, Journal Processing, Intercompany Accounting, Accruals, Reclassifications

Scripting & Integration – REL, JavaScript, API Interfaces, File Interfaces

Development & Testing – Unit Testing, Integration Testing, Defect Fixing, Workflow Logic

Industry Standards – SOX, Audit Controls, Financial Services, Regulated Industry

PROJECTS

Automated Close and Reconciliation for Enterprise Finance

- Built and configured end-to-end close processes for a financial services client using Redwood Finance Automation, including task management and automated steps.
- Developed automated account reconciliation logic with exception handling for a diverse set of accounts, significantly reducing manual review effort.
- Integrated the Redwood solution with the client's SAP ECC system via file-based data transfers and custom API endpoints for journal postings.

Journal Entry Automation and ERP Integration

- Designed and implemented a journal entry automation workflow using Redwood Finance Automation, processing approximately **1,500** entries per month.
- Developed custom scripting in REL to handle complex data validation rules prior to posting journals into the Oracle ERP system.
- Collaborated with finance stakeholders to gather requirements and validate the accuracy of automated postings during UAT.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
