HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented automated test frameworks for **microservices** and **APIs**, focusing on backend validation and integration testing for a distributed systems platform.
- Developed and maintained **BDD tests using Cucumber** within a **Java** (JUnit, Maven) environment, ensuring adherence to defined acceptance criteria for new feature releases.
- Authored and executed **SQL queries** and validated complex data transformations across multiple database schemas, supporting data integrity checks for backend services.
- Integrated automated test suites into **CI/CD pipelines** using Jenkins, enabling continuous feedback loops and reducing manual regression testing effort by **40%**.
- Collaborated with developers and DevOps engineers to define comprehensive **test coverage** strategies and key quality metrics for **Spring Boot** applications.
- Analyzed system logs and debugged issues in distributed environments using **Unix/Linux commands** on **OpenShift** clusters, resolving an average of **5 critical bugs** per sprint.
- Interacted with distributed systems like **Kafka** and **Redis** to simulate real-world scenarios and validate data flow and persistence across microservices.

SKILLS

Testing Frameworks – Cucumber, JUnit, Maven, Gradle

Languages – Java, SQL, Unix/Linux Shell Scripting

Backend Technologies – Spring Boot, Spring Batch, REST APIs, JSON

Databases – PostgreSQL, MySQL, Oracle

Cloud & Containerization – OpenShift, Kubernetes, Docker, AWS

CI/CD & Observability – Jenkins, UDeploy, Kafka, Redis, Splunk, Dynatrace

PROJECTS

Automated API Testing Framework for Financial Services

- Engineered a comprehensive **Java**-based automated testing framework using **Spring Boot** and **JUnit** to validate **REST APIs** for a payments operations dashboard.
- Implemented **BDD scenarios** with **Cucumber** to define and execute acceptance tests, covering transaction processing and reconciliation workflows.
- Integrated the framework with **Jenkins** pipelines, enabling automated test execution on every build and improving defect detection by **30%**.

Microservices Integration Testing on Kubernetes

- Developed integration tests for a suite of **Java microservices** deployed on **Kubernetes**, focusing on inter-service communication and data consistency.
- Validated data persistence and retrieval logic by writing complex **SQL queries** against a PostgreSQL database, ensuring data integrity across services.
- Configured test environments using **Docker** and basic **Kubernetes** manifests to replicate production-like conditions for accurate testing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
