PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented comprehensive **fire protection systems** for mission-critical facilities, ensuring compliance with international safety standards and **building codes**.
- Collaborated with **cross-functional teams** including architects and global engineering groups to develop and deploy innovative **fire safety solutions** for data center infrastructure.
- Provided technical guidance and expertise on **fire protection engineering** matters, contributing to the continuous improvement of design standards and methodologies.
- Researched and evaluated new **design concepts**, **technologies**, and construction methods for data center equipment and facilities, integrating findings into project specifications.
- Reviewed and ensured adherence to **international fire protection standards** and local **building codes** during the design and commissioning phases of critical infrastructure projects.
- Supported the development of **construction drawings**, **specifications**, and submittal documents, translating design concepts into actionable implementation plans.
- Managed the **commissioning process** for fire protection systems, verifying functionality and performance against design specifications and operational requirements.

SKILLS

Fire Protection Engineering – Design, Systems, Safety, Standards, Codes, Commissioning

Data Center Engineering – Mission Critical Facilities, Infrastructure, Design

Technical Documentation – Drawings, Specifications, Submittals

Project Management – Technical Guidance, Continuous Improvement, Research & Development

Collaboration – Cross-functional Teams, Global Engineering, Architects

PROJECTS

Data Center Fire Safety System Design

- Developed detailed designs for **fire suppression systems**, including sprinkler layouts and gas-based solutions, for a large-scale data center facility.
- Ensured designs met stringent **international fire protection standards** and local regulatory requirements, conducting thorough reviews of compliance documentation.
- Collaborated with external consultants to validate system performance and integration with overall building infrastructure.

Critical Facility Fire Protection Standards Review

- Researched and analyzed emerging **fire protection technologies** and construction methods applicable to mission-critical environments.
- Authored a comprehensive report recommending updates to existing **design standards**, focusing on enhanced safety and operational efficiency.
- Presented findings and recommendations to the engineering leadership team for strategic adoption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
