PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Defined and executed end-to-end functional test scenarios and regression packs for complex policy administration and claims processing workflows on **Life400/AS400** platforms.
- Validated intricate data flows across **Life400, AS400, and IBM Mainframe** systems, ensuring data integrity and consistency for critical insurance operations.
- Identified, meticulously tracked, and resolved high-severity defects, collaborating closely with Business Analysts and Developers to de-risk production releases.
- Provided actionable risk assessments and delivered executive-facing quality updates on system readiness prior to production deployment.
- Partnered with senior stakeholders and Business Analysts to gather requirements and define testing strategies for multi-year system transformation initiatives.
- Established and managed robust test environments, validating complex system integrations to support next-generation product launches.
- Performed root cause analysis on P1/P2 incidents impacting enterprise applications, implementing corrective actions to maintain service level agreements.

SKILLS

Core Systems – Life400, AS400, IBM Mainframe

Testing Methodologies – End-to-End Testing, Functional Testing, Regression Testing, QA Strategy, Test Environment Management

Domain Knowledge – Life & Pensions, Policy Administration, Claims Processing, Insurance Workflows

Defect Management – Defect Tracking, Root Cause Analysis, Defect Resolution

Collaboration & Communication – Stakeholder Management, Business Analysts, Developers, Executive Reporting

PROJECTS

Core Insurance Platform Modernization

- Developed comprehensive test cases for validating modernized policy administration modules on **AS400**, ensuring seamless transition from legacy systems.
- Executed regression testing cycles on integrated claims processing workflows, identifying and documenting defects impacting operational efficiency.
- Collaborated with BAs to refine acceptance criteria and conducted User Acceptance Testing (UAT) with business stakeholders.

Life & Pensions System Integration Testing

- Designed and executed integration tests for data migration from **Life400** to a new core platform, verifying data integrity across **millions of records**.
- Managed test environment configurations and data setup for complex system interactions, ensuring accurate simulation of production scenarios.
- Authored detailed test reports and provided quality sign-offs for critical release milestones.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
