PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and configured server hardware, including **cabinets, shelves, and rails**, adhering strictly to data center operational standards and ticketing system requirements.
- Managed the physical installation and connection of **servers, storage devices, and network equipment**, ensuring accurate labeling and compliance with infrastructure documentation.
- Performed routine troubleshooting of **data center hardware, cabling (copper/fiber), and power connectivity**, escalating complex issues to senior engineering teams as per established SOPs.
- Executed equipment moves, changes, and decommissioning activities, maintaining meticulous records and updating **inventory and operational logs** for audit readiness.
- Collaborated with **site operations teams and other technicians** to complete installations and resolve hardware-related operational issues, ensuring timely service delivery.
- Maintained accurate documentation of all work performed, including updates to **rack diagrams and asset records**, to support transparency and compliance.
- Contributed to continuous improvement initiatives by identifying opportunities to enhance **operational processes, safety protocols, and documentation quality** within the data center environment.

SKILLS

Data Center Operations – Hardware Installation, Equipment Moves, Decommissioning, Cable Management, Rack Configuration, Material Handling Equipment Operation

Troubleshooting & Maintenance – Hardware Diagnostics, Cabling Issues (Fiber/Copper), Power Connectivity, Routine Maintenance, Issue Escalation

Documentation & Compliance – Ticketing Systems, SOP Adherence, Inventory Management, Operational Logs, Safety Policies, Security Requirements

Hardware Components – Servers, Storage Devices, Cabinets, Shelves, Rails, Power Strips, Network Equipment

Tools & Software – MS Office Suite, Web Browsers, Ticket Management Systems, Copper/Fiber Testers

PROJECTS

Data Center Infrastructure Deployment & Support

- Executed the physical installation of over **150 server and storage units** across multiple racks in a high-density data center environment, ensuring precise alignment and secure mounting.
- Managed end-to-end cabling for new deployments, including running and terminating **fiber optic and copper network cables** according to strict bend radius and color-coding standards.
- Documented all hardware placements, cable runs, and power configurations within the **ticketing system and inventory database**, reducing misconfigurations by approximately 18%.

Data Center Operations Enhancement Initiative

- Assisted in developing and refining **Standard Operating Procedures (SOPs)** for equipment installation and cable management, leading to a more streamlined and consistent workflow for the team.
- Performed diagnostic testing on various **copper and fiber optic cables** using specialized testers to verify signal integrity and identify faulty connections, contributing to a 15% reduction in connectivity issues.
- Participated in cross-functional team meetings to identify bottlenecks in the **decommissioning process** and proposed solutions that improved asset recovery efficiency by 10%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
