# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Mapped business requirements to system changes for Salesforce, Maxio, and NetSuite, ensuring alignment with stakeholder objectives.
- Developed and executed test plans for system updates in Jira, collaborating with end-users to validate functionality and gather feedback.
- Facilitated design workshops with business stakeholders to gather requirements and define system configurations for new process implementations.
- Managed change requests and system configuration updates through a formal change-control process, coordinating UAT and post-go-live support.
- Authored detailed process documentation and user guides for system enhancements, supporting effective adoption across operational teams.
- Performed root cause analysis for system-related incidents, identifying and implementing corrective actions to improve application stability.
- Containerized enterprise applications using **Docker**, preparing them for deployment onto **AWS EC2** instances via **Jenkins** CI/CD pipelines.

## SKILLS

**Systems Analysis** – Process Mapping, Requirements Gathering, Design Workshops, UAT, Change Management, System Configuration

**CRM & ERP Systems** – Salesforce, Maxio, NetSuite, Jira, Confluence

**Backend Development** – Java, Spring Boot, REST APIs, Python Scripting, SQL

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Data & Analytics** – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, PostgreSQL, MySQL, Oracle

## PROJECTS

### Business Systems Integration & Automation (HCL Technologies)

- Designed and implemented automated Python scripts to streamline data ingestion from multiple enterprise systems into a central PostgreSQL data warehouse, reducing manual processing time by **40%**.
- Developed RESTful APIs using **Java Spring Boot** to facilitate cross-system data exchange between legacy ERP modules and a new operational dashboard, supporting real-time data synchronization.
- Collaborated with business analysts to translate requirements for reconciliation workflows into technical specifications for data validation and error-reporting modules.

### Operational Dashboard Enhancement (HCL Technologies)

- Enhanced a financial-services operations dashboard by building custom **Power BI** reports and **DAX** measures to visualize transaction monitoring metrics, providing actionable insights to operations teams.
- Refactored SQL queries against an **Oracle** database to optimize data retrieval for the dashboard, improving report load times by an average of **30%**.
- Supported production deployments of dashboard updates via **Jenkins** pipelines, ensuring minimal disruption to end-users.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
