PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Qualified **SSD and HDD drive solutions** on Dell server products, collaborating with internal development partners to ready drive programs for factory and customer readiness.
- Established expertise in **drive technology solutions**, encompassing hardware, firmware, and software interactions for enterprise server platforms.
- Debugged complex **digital hardware issues** on emerging technologies, working across global engineering teams to resolve technical challenges.
- Developed and maintained **Python automation scripts** for ETL processes and scheduled reporting, improving data processing efficiency for enterprise systems.
- Performed production support and monitoring of enterprise **Java/.NET applications** using Splunk and Dynatrace, managing SLAs and responding to P1/P2 incidents.
- Contributed to CI/CD pipelines using **Jenkins and Git**, performing code reviews and managing branching strategies for software releases.
- Containerised applications using **Docker** and deployed to **AWS EC2 instances**, ensuring consistent environments for development and production.

SKILLS

Hardware/Firmware – SSD, HDD, NVMe, PCIe, x86 Server Architecture, Digital Hardware Debug

Software Development – Java, Spring Boot, Python, .NET, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Monitoring & Support – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management

Data Analytics – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Data Modelling

PROJECTS

Enterprise Server Drive Validation Framework (HCL Technologies)

- Engineered a Python-based framework to automate the validation of **SSD and HDD drive firmware** across various Dell server configurations.
- Integrated **REST APIs** to pull drive performance metrics and logs, enabling rapid analysis of compatibility issues with server hardware.
- Developed **SQL queries** to track test results and identify failure patterns, contributing to a 15% reduction in late-stage drive qualification issues.

Automated Test Suite for Embedded Systems (HCL Technologies)

- Designed and implemented automated test cases using **Python scripting** for embedded systems, focusing on hardware-firmware interaction.
- Managed test execution and result aggregation via a custom dashboard, providing clear visibility into **system stability and performance** for a team of 8 engineers.
- Collaborated with cross-functional teams to define test requirements and integrate new test scenarios, improving overall system robustness.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
