HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **production support** and incident response for enterprise applications, resolving P1/P2 incidents and ensuring adherence to service level agreements (SLAs) using **Splunk** and **Dynatrace**.
- Developed **Python scripts** for automating data ingestion and ETL processes, reducing manual data preparation time by approximately **30%** for scheduled reporting.
- Executed **SQL queries** and performed data validation across **PostgreSQL** and **MySQL** databases for system integration testing and change management activities.
- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate data exchange between microservices, improving inter-service communication efficiency.
- Containerized a suite of backend Java services using **Docker** and deployed them to **AWS EC2** instances, enabling more consistent and reliable application deployments.
- Collaborated with cross-functional teams to gather requirements for system enhancements, participating in **Agile ceremonies** and conducting peer code reviews for new feature development.
- Administered user access controls and managed permissions within a **high-regulation environment**, ensuring compliance with security policies and audit trail requirements.

SKILLS

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux, Shell Scripting

Languages & Frameworks – Java, Spring Boot, Python, SQL, REST APIs

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Monitoring & Observability – Splunk, Dynatrace

Data Analysis & BI – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Power Query

PROJECTS

Automated Transaction Reconciliation System (HCL Technologies)

- Developed a **Python-based** system to automate the reconciliation of financial transactions by processing data from multiple sources, including **PostgreSQL** and flat files.
- Engineered data pipelines to extract, transform, and load transaction records, ensuring data integrity and reducing manual reconciliation efforts by an estimated **20%**.
- Implemented error handling and logging mechanisms to provide clear audit trails for discrepancies, enhancing operational transparency for the financial services client.

IT System Access Management Tool (HCL Technologies)

- Built a command-line tool using **Python** to streamline the process of managing user access requests and provisioning across various enterprise systems.
- Integrated with **Linux** shell scripts and simulated API calls to enforce access policies and generate compliance reports for IT and security teams.
- Designed a workflow that reduced the average time for user access fulfillment from 2 days to under 4 hours, improving operational efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
