PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed and documented Sales & Marketing processes, identifying opportunities to apply **lean principles** and streamline workflows across multiple systems.
- Acted as the primary business lead for system enhancements, translating requirements for **Salesforce** and **Marketo** into technical specifications for configuration and automation.
- Facilitated cross-functional workshops with Sales & Marketing, operations, and digital transformation teams to map pain points and design future-state processes for integrated solutions.
- Developed comprehensive documentation for systems, processes, and standard operating procedures, supporting user training and change management initiatives.
- Managed user training and onboarding for new tools and system updates, driving adoption and ensuring effective usage across the Sales & Marketing teams.
- Collaborated with analytics teams to monitor system performance and user feedback, identifying opportunities for continuous enhancement and optimization.
- Contributed to tool rationalisation initiatives, assessing overlaps in the existing tech stack and proposing streamlined, cost-effective solutions.

SKILLS

CRM & Marketing Automation – Salesforce, Marketo, Gong

Business Analysis & Process Improvement – Process Mapping, Requirements Gathering, Lean Principles, User Training, Change Management, UAT

System Integration & Operations – System Configuration, Automation, Data Quality, User Experience, Operational Efficiency

Project Management & Collaboration – Project Management, Stakeholder Engagement, Cross-functional Collaboration, Documentation

Data & Analytics – Analytics, Data Analysis, Business Intelligence

PROJECTS

Sales Process Optimization Initiative

- Mapped current-state sales processes and identified bottlenecks using **process analysis techniques** and stakeholder interviews.
- Designed future-state workflows incorporating automation and system enhancements for **Salesforce** to improve data quality and user experience.
- Developed training materials and led sessions for the sales team on new process adherence and system best practices, improving adoption by **~30%**.

Marketing Operations Enhancement Project

- Gathered business requirements from Marketing stakeholders for enhancements to the **Marketo** platform and integrated CRM workflows.
- Translated functional requirements into detailed technical specifications for system configuration and identified opportunities for automation, reducing manual data entry by **45%**.
- Supported UAT for new features and collaborated with the digital transformation team to ensure smooth post-implementation integration and operational readiness.
