# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and maintained **SQL queries** and scripts for efficient data extraction and analysis, supporting the generation of over **15 key operational reports** weekly.
- Performed **data analysis** to identify trends and patterns, contributing to process optimization initiatives that reduced data processing times by an average of **18%**.
- Wrote **Python scripts** to automate data manipulation tasks and build data pipelines, processing approximately **50,000 records** daily for analytical use.
- Collaborated with business analysts and operations teams to gather requirements for a financial-services dashboard, translating needs into technical specifications.
- Created **visualizations and reports** using **Power BI** to communicate data-driven insights to stakeholders, facilitating quicker decision-making.
- Troubleshot and resolved **data-related issues** in production environments, ensuring data integrity for critical financial operations.
- Containerized data processing services using **Docker** and managed deployments on **AWS EC2** instances via Jenkins pipelines.

## SKILLS

**Core Skills** – Data Analytics, Python, MS SQL, SQL, Data Analysis, Problem-Solving, Attention to Detail, Communication

**Programming Languages** – Python, SQL

**Databases** – MS SQL, PostgreSQL, MySQL, Oracle

**Tools & Technologies** – Power BI, Docker, Jenkins, AWS EC2, Git, Jira, Confluence, Splunk, Dynatrace

**Methodologies** – Agile, Scrum

## PROJECTS

**Financial Operations Data Analysis Platform**

- Developed Python scripts and SQL queries to extract and consolidate transaction data from multiple sources for a financial-services operations dashboard.
- Built interactive **Power BI dashboards** to visualize transaction flows, identify bottlenecks, and monitor key performance indicators for operational teams.
- Automated the generation of daily and weekly **SQL-based reports**, reducing manual effort by approximately **10 hours per week**.

**Automated Data Pipeline for ERP Integration**

- Engineered a **Python-based ETL pipeline** to extract data from legacy ERP systems and load it into a central data warehouse.
- Implemented **SQL stored procedures** for data transformation and validation, ensuring data accuracy and consistency across systems.
- Designed and deployed the pipeline on **AWS Lambda**, processing over **10,000 records** per batch job.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
