HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **SQL queries** and scripts to extract and analyze data from large datasets, supporting over 50 distinct reporting requirements.
- Performed **data analysis** to identify trends and patterns, contributing to process optimization initiatives that reduced manual data reconciliation effort by approximately **15%**.
- Utilized **Python programming** to automate data extraction and transformation tasks, building data pipelines that processed an average of **200 GB** of data daily.
- Collaborated with team members to understand business requirements for new data-driven solutions, translating needs into actionable technical specifications.
- Created **visualizations and reports** using Power BI to communicate data-driven insights to business stakeholders, enabling more informed decision-making.
- Troubleshot and resolved data-related issues, including **SQL performance bottlenecks** and data integrity discrepancies, ensuring timely delivery of accurate reports.
- Containerized Python data processing scripts using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Core Skills – Data Analytics, Python, SQL, Data Analysis, Problem-Solving, Attention to Detail, Communication

Databases – MS SQL, PostgreSQL, MySQL, Oracle

Programming Languages – Python, Java

Data Visualization – Power BI, Tableau

Tools & Technologies – Docker, AWS EC2, Jenkins, Git, Jira, Confluence

PROJECTS

Automated Financial Data Extraction and Reporting

- Developed Python scripts to automate the extraction of financial transaction data from multiple PostgreSQL and MS SQL databases, reducing manual effort by **40%**.
- Built robust data pipelines using pandas to clean, transform, and aggregate the extracted data, preparing it for analysis and reporting.
- Created interactive **Power BI dashboards** to visualize key financial metrics and trends for management review, enhancing operational oversight.

Enterprise Data Analysis and Optimization

- Engineered complex **SQL queries** and stored procedures against large enterprise datasets to support analytical reporting and business intelligence initiatives.
- Analyzed query performance and implemented indexing strategies and query optimizations, resulting in a **30%** reduction in average report generation time.
- Collaborated with business analysts to define data requirements and deliver insights that supported strategic decision-making across operational teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
