HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed incoming support tickets and escalated P1/P2 incidents for enterprise applications, coordinating with cross-functional operations teams to restore service within defined SLAs.
- Developed Python scripts to automate data extraction and reporting tasks for financial reconciliation workflows, reducing manual effort by approximately 15 hours per week.
- Performed production support for a payments operations dashboard, monitoring transaction flows and investigating alerts for failed or delayed payment messages.
- Analyzed and debugged issues within a Java Spring Boot-based application, implementing bug fixes and small feature enhancements to improve system stability.
- Provided Level 2 diagnostics for Windows and Linux server environments, analyzing logs from **Splunk** and **Dynatrace** to identify root causes of performance degradation.
- Configured and maintained **Jenkins** pipelines for automated builds and deployments, ensuring consistent code integration and release processes across development and production environments.
- Supported an internal feature store, building Python data pipelines on **AWS Lambda** and **S3** to power downstream ML scoring and replacing a brittle scheduled-batch job.

SKILLS

Operating Systems – Windows, Linux

Networking – TCP/IP, DNS, DHCP

Support Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch

Scripting & Automation – Python, Bash Scripting

Programming Languages – Java, Spring Boot

Databases – SQL, PostgreSQL, MySQL, Oracle

Cloud & CI/CD – AWS (EC2, S3, Lambda), Docker, Jenkins

PROJECTS

Automated Transaction Monitoring System (HCL Technologies)

- Developed a Python-based system to ingest and process transaction data from various sources, enabling real-time monitoring for anomalies and potential failures.
- Implemented custom alerting mechanisms using **Flask** and **SQLAlchemy** to notify operations teams of critical issues, reducing incident response times by an average of 20%.
- Integrated with **PostgreSQL** to store historical transaction data and audit logs, facilitating root cause analysis and compliance reporting.

Enterprise System Integration Support (HCL Technologies)

- Supported integration efforts between core ERP modules and other enterprise business systems, focusing on data consistency and workflow automation.
- Designed and implemented **REST APIs** using Java Spring Boot to facilitate data exchange between disparate systems, ensuring seamless communication for business processes.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for cross-system integrations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
