HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Python (FastAPI)** backend services on **AWS Lambda**, processing an average of **~500 requests per minute** for new platform features.
- Designed and implemented **AWS S3**-based storage solutions for raw data ingestion, ensuring availability for downstream processing pipelines.
- Containerized backend microservices using **Docker**, enabling consistent deployment across development and staging environments.
- Collaborated with product and architecture teams to translate complex requirements into technical designs for new cloud-native services.
- Wrote **Python** scripts to automate data validation and ETL processes, reducing manual effort by approximately **30%**.
- Participated in code reviews and pair programming sessions to maintain code quality and share knowledge on backend development best practices.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within defined SLAs.

SKILLS

Cloud Platform – AWS, AWS Lambda, AWS S3, EC2, CloudWatch

Backend Development – Python, Django, Flask, FastAPI, Java, Spring Boot, REST APIs

Data Stores – PostgreSQL, MySQL, Oracle, Docker

DevOps & CI/CD – Jenkins, Git, Code Reviews

Observability & Monitoring – Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Cloud-Native Backend Service for Data Ingestion

- Built a **Python (FastAPI)** service deployed on **AWS Lambda** to handle incoming data streams, processing up to **1,500 events per second** during peak loads.
- Integrated with **AWS S3** to store processed data in a structured format, facilitating access for analytics and reporting teams.
- Implemented logging and monitoring using **CloudWatch** to track service health and identify potential bottlenecks.

API Development for Enterprise System Integration

- Designed and developed **Java Spring Boot** REST APIs to facilitate data exchange between an internal ERP system and a client-facing platform.
- Wrote **SQL** queries against a **PostgreSQL** database for data retrieval and manipulation, supporting complex reporting requirements.
- Containerized the application using **Docker** for streamlined deployment and environment consistency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
