HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **AI-driven trust platforms** for the next generation of Windows, focusing on product agility and enterprise-scale automation.
- Developed solutions to detect and prevent critical **application compatibility issues** across a broad range of devices and silicon vendors.
- Contributed to the health of the Windows application ecosystem, ensuring compatibility with diverse hardware and software configurations.
- Collaborated with engineering teams across Microsoft to drive scenarios and influence technical direction on Windows development lifecycle improvements.
- Mentored less experienced engineers on best practices for **reliable software development** and continuous learning within an Agile framework.
- Shipped engineering and data products that transformed how Windows is built and shipped, impacting millions of users globally.
- Managed production incidents for enterprise Java/.NET applications using **Splunk** and **Dynatrace**, adhering to strict SLAs and performing root cause analysis.

SKILLS

Languages – Java, Python, C++, C#, JavaScript

Cloud & Platforms – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker, Kubernetes

Data & AI – scikit-learn, pandas, NumPy, machine learning fundamentals

Development Tools – Git, Jenkins, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

Frameworks & APIs – Spring Boot, REST APIs, FastAPI

PROJECTS

AI-Powered Windows Trust Platform Development

- Engineered **AI-driven automation** solutions to enhance trust and agility within the Windows development lifecycle for enterprise-scale deployment.
- Developed features for intelligent decision systems and responsible AI use, contributing to the next generation of Windows security and reliability.
- Collaborated with cross-functional teams to integrate new AI capabilities into existing development pipelines, improving overall product quality.

Windows Silicon Integration & Compatibility Tooling

- Built tooling to analyze and detect **application compatibility issues** across diverse hardware and silicon vendors for Windows releases.
- Developed data pipelines using **Python** and **SQL** to process large datasets of system telemetry and identify potential conflicts.
- Contributed to ensuring the health of the Windows application ecosystem by implementing automated checks and reporting mechanisms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
