# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Designed and implemented AI-powered automation solutions for enterprise-scale product agility and trustworthy development on the Modern AI Trust platform.
- Developed and shipped engineering and data products that transformed how Windows is built and shipped, contributing to experiences used by over a billion people.
- Collaborated with engineering teams across Microsoft to influence technical direction and improve the quality and reliability of Windows releases.
- Built and maintained application compatibility for a broad range of devices and silicon, detecting and preventing critical application compatibility issues before they reach customers.
- Wrote production runbooks and internal documentation that reduced customer onboarding time by approximately 60% for new clients adopting the ML platform.
- Containerised feature-pipeline services with Docker and deployed them to a Kubernetes cluster, wiring up Helm chart configuration and basic resource limits for predictable rollout.
- Implemented Python scripting for automation and data pipelines, processing approximately 1.5 TB of data weekly for scheduled reporting and ETL tasks.

## SKILLS

**Languages** – Python, Java, C++, C#, JavaScript

**Cloud & Containerization** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

**Data & AI** – scikit-learn, pandas, NumPy, AI-driven solutions, large-scale data analysis

**Developer Tools & Methodologies** – Git, Jenkins, Jira, Confluence, Agile/Scrum

**Databases** – PostgreSQL, MySQL, Oracle

**Operating Systems** – Linux

## PROJECTS

### AI-Driven Trust Platform Development

- Developed intelligent decision systems using AI to strengthen trust across the Windows development lifecycle, enhancing product agility for enterprise-scale automation.
- Designed and implemented features for the next generation of Windows, focusing on trustworthy development and responsible AI use in collaboration with engineering teams.
- Analyzed large-scale data to generate insights that guided engineering decisions and continuously improved the quality and reliability of the platform.

### Windows Application Compatibility Engine

- Built solutions to detect and prevent critical application compatibility issues across a wide range of devices and silicon vendors for Windows releases.
- Maintained the health of the Windows application ecosystem, ensuring smooth operation on new hardware and evolving device form factors.
- Used data analysis to identify patterns in application failures, contributing to proactive fixes and enhanced user experiences.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
