PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary technical point of contact for an 80-person office, logging, categorizing, and prioritizing over 500 technical support requests per month via **ServiceNow**.
- Resolved end-user incidents for **PCs, laptops, printers, and mobile devices**, including troubleshooting complex issues with **Office 365** and **business applications**, achieving a 92% first-contact resolution rate.
- Contributed detailed technical documentation and procedural updates to the departmental **Knowledge Base**, improving onboarding efficiency for new IT support staff by an estimated **15%**.
- Performed initial triage for incoming incidents and service requests, accurately routing them to specialized teams such as network operations and server administration, reducing average escalation time by **20%**.
- Maintained and updated user accounts and permissions within **Active Directory** and **Entra ID**, ensuring secure and compliant access to company resources.
- Assisted in the testing and evaluation of new technologies, including **Copilot** integrations and updated hardware configurations, to enhance user productivity.
- Managed PC hardware and software support processes, coordinating replacements and upgrades for over 100 workstations annually, ensuring minimal disruption to business operations.

SKILLS

Operating Systems – Windows 11, Windows Server, Linux

Cloud & Identity – Office 365, Entra ID, Active Directory, Exchange, Copilot

Hardware & Peripherals – PC hardware, Laptops, Printers, Mobile devices

Support Tools – ServiceNow, Jira, Confluence, Splunk, Dynatrace

Networking & Administration – Basic networking, System administration

Methodologies – ITIL Framework, Agile, Scrum

PROJECTS

Enterprise Desktop Support Enhancement

- Revamped the incident logging and categorization process within **ServiceNow** for a multi-office environment, improving ticket accuracy and routing efficiency by **30%**.
- Developed and delivered targeted training sessions on common software issues and best practices for **Windows 11** and **Office 365** to over 150 end-users.
- Supported the rollout of new hardware across two office locations, ensuring seamless integration and minimal downtime for end-users during the transition.

Internal IT Knowledge Base Development

- Authored and curated technical documentation for common IT issues and standard operating procedures, contributing over 50 articles to the internal **Knowledge Base**.
- Collaborated with senior IT staff to establish content standards and review processes for technical articles, enhancing the overall quality and usability of support resources.
- Implemented a feedback mechanism for knowledge base articles, leading to a **20%** increase in user satisfaction with self-service support options.
