PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as a global functional expert for **supply chain planning master data** across **SAP** and planning platforms, defining and maintaining end-to-end processes for creation, maintenance, validation, and governance.
- Supported **SAP S/4HANA transformation** initiatives, focusing on planning master data harmonization and readiness for new data models, including participation in data migration and cutover activities.
- Developed and maintained **data quality KPIs**, dashboards, and scorecards to monitor master data health, identifying and driving **continuous improvement initiatives** across data, processes, and systems.
- Collaborated with IT, Data Quality, and Master Data teams to ensure planning data was fit for purpose, supporting standardized global processes across supply chain, manufacturing, and commercial functions.
- Executed test scenarios and scripts across **SIT and UAT phases** for new master data configurations and system deployments, ensuring alignment with business needs and functional requirements.
- Managed the creation, maintenance, and validation of **master data** for supply chain planning, ensuring adherence to defined policies, standards, and procedures with a focus on scalability and quality.
- Containerized **planning data services** using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and monitoring via **CloudWatch** for predictable rollouts.

SKILLS

SAP – S/4HANA, MM, PTP, OTC, Master Data Management

Data Governance – Data Quality KPIs, Policies, Standards, Procedures, Validation, Cleansing, Migration

Supply Chain Planning – Master Data, Global Operations, Manufacturing, Commercial Alignment

Cloud & Containerization – AWS, EC2, Docker, CloudWatch

Methodologies – Agile, Scrum, SIT, UAT, Test Scenarios, Data Migration, Cutover Activities

Databases & Scripting – SQL, Python, Relational Databases

PROJECTS

Global Supply Chain Master Data Harmonization (HCL Technologies)

- Defined and implemented global standards for master data creation and maintenance across **SAP ERP** modules, ensuring consistency for planning and execution.
- Developed Python scripts to automate data validation checks and cleansing routines for key planning master data attributes, reducing manual effort by an estimated **30%**.
- Collaborated with cross-functional planning and operations teams to gather requirements for master data enrichment, supporting the rollout of standardized global processes.

Enterprise Planning System Data Migration Support (HCL Technologies)

- Supported the data migration phase for an enterprise planning system upgrade, including data extraction, transformation, and loading into new system structures.
- Performed rigorous data validation against defined quality KPIs and business rules post-migration, identifying and rectifying ~**450** data discrepancies in the initial pass.
- Contributed to the creation of operational runbooks for post-go-live data monitoring and issue triage, ensuring smooth transition for business users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
