

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing **RESTful APIs** for data exchange and business logic, processing approximately **1,500 requests per minute**.
- Engineered **Python ETL pipelines** to ingest, transform, and load data from various sources into analytical data stores, supporting daily reporting operations for enterprise customers.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace** for monitoring and incident response, ensuring adherence to strict **SLAs** for P1 and P2 incidents.
- Designed and implemented database schema changes and optimized **SQL queries** across **PostgreSQL** and **Oracle** databases, improving data retrieval performance by an average of **18%**.
- Containerized Java applications using **Docker** and managed deployments on **AWS EC2** instances, contributing to a more consistent and scalable development environment.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating actively in sprint planning, code reviews, and daily stand-ups to deliver features iteratively.
- Automated routine system administration tasks and data validation processes using **shell scripting** on **Linux** servers, reducing manual intervention time by roughly **5 hours per week**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA, JUnit, Mockito, Maven, Gradle

Data Engineering & Scripting – Python, Pandas, NumPy, SQL, PostgreSQL, MySQL, Oracle, ETL, Data Warehousing, Bash Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Observability & Support – Splunk, Dynatrace, Jira, Confluence, Linux, Incident Response, SLA Management

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, Scikit-learn, Statistical Analysis

PROJECTS

Enterprise Java Application Modernization

- Refactored monolithic Java application components into **Spring Boot microservices**, improving modularity and maintainability for an internal financial-services platform.
- Implemented **RESTful APIs** for inter-service communication using **JPA** for data persistence with **PostgreSQL**, ensuring transactional integrity across related operations.
- Enhanced application performance by optimizing database queries and introducing caching mechanisms, reducing average response times by approximately **22%**.

Automated Financial Reporting Pipeline

- Developed a **Python**-based data pipeline to automate the extraction, transformation, and loading of transaction data from multiple sources into a central data warehouse.
- Integrated with **SQL databases** to perform data validation and aggregation, generating daily operational reports for business stakeholders and reducing manual reporting effort.
- Containerized the reporting application using **Docker** for consistent deployment across development and production environments on **AWS**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
