

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed **Java Spring Boot** microservices for backend systems, implementing **RESTful APIs** to support new feature requirements and integrate with upstream services.
- Engineered **Hibernate** and **JPA** persistence layers for enterprise applications, optimizing database interactions and ensuring data integrity across **PostgreSQL** and **MySQL** schemas.
- Designed and implemented **Java EE** design patterns and object-oriented principles in application development, enhancing code maintainability and extending system functionality with comprehensive **JUnit** test coverage.
- Participated in peer code reviews, providing constructive feedback to junior developers and ensuring adherence to team coding standards and best practices.
- Supported system testing phases, meticulously debugging and resolving defects identified by QA teams, contributing to a smoother overall release cycle.
- Contributed to **Agile** ceremonies, including sprint planning and daily stand-ups, providing technical estimations and insights for task breakdown and progress tracking.
- Containerized Java applications using **Docker**, configuring basic resource limits and preparing images for deployment to cloud environments like **AWS EC2**.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, Java EE, RESTful web services, Microservices, JUnit, Maven

Frontend Development – Angular, JavaScript, TypeScript

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Methodologies – Agile, Scrum

Observability & Support – Splunk, Dynatrace

PROJECTS

Enterprise Java Backend Service Modernization

- Refactored legacy Java components into a **Spring Boot** microservice architecture, improving system modularity and facilitating independent deployments.
- Implemented **RESTful APIs** for core business logic, ensuring robust error handling and efficient data exchange between services using **JSON** payloads.
- Achieved over 90% code coverage with **JUnit** and Mockito, reducing critical bugs in the new service by approximately 40% compared to the previous monolithic system.

API Integration Layer for Business Systems

- Developed a Java application layer using **Spring Boot** to integrate disparate enterprise systems, including ERP modules and operational platforms.
- Managed data persistence and retrieval using **Hibernate** with **PostgreSQL**, designing efficient queries and optimizing schema for improved read performance.
- Automated data synchronization processes between systems via scheduled jobs and API calls, reducing manual data entry effort by an estimated 15 hours per week.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
